### Under Desk Power

Conti is a completely configurable desk power system, designed specifically to meet the increasing power and communication needs of the modern office. Modules have been designed with speed of installation and flexibility in mind. Its many unique design features enable a vast choice of power and data options to fulfil most specifications. A choice of either metal or plastic extrusion is available.

See page 86 for information on CMD tap offs

Note: We only supply mains fuse holders in black and white. If you require your Conti unit to be colour matched in grey our MCB is available in grey and white and is a good alternative to our fuse holder – please ask for details.

Data Cables: CMD cannot accept any responsibility or liability for providing HDMI performance in products supplied over 5m in length.
