Contour metal power and data

If you still want the modern, curved appearance of Contour without the restrictions in length, then our new metal Contour with its sleek silver anodised metal extrusion is the one for you.

Lateral fuses with a choice of 3.15A or 5A to comply with BS 6396:2008

Anodised aluminium extruded body

Choose from power, USB charging, data, audio and international sockets

81mm

60mm

- Extruded silver metal body for longer lengths
- Power and data cables all exit from the back of the unit unless on a slatwall/tool rail where cables exit from the bottom of the unit
- Unit complies with BS 5733
- All standard options are supplied with a 1m mains lead to 3 pole connector
- Requires a separate mains lead if connected directly to a socket
- Fixing via Contour C clamp or adhesive fixing kit
- Segregation between power and data to comply with BS 6396
- No visible fixing screws

Build it your way

Please see page 47 for more information.

Manage your energy

Configure to allow energy to be monitored and controlled with Footprint. See page 155 for more details.

Note: CMD cannot accept any responsibility or liability for providing category 6 performance in products supplied.

Fuses: Only accessible after removal of equipment plug. Lead lengths shown will be the conductor length and not the distance from the end of the module to the plug. For example, a 3m prewired power lead will be approximately 2.875m as 125mm will be internal for the termination. This is also applicable for data leads. Data fascias may be subject to colour change.

Cables: White and grey modules are supplied with white cables and black modules are supplied with black cables.

HDMI: CMD cannot accept any responsibility or liability for providing HDMI performance in products supplied over 10m in length.
