C clamp

Mount

Security Screw To secure, screw in fully then rewind 1 full turn

# Installation Guide

# **Cygnus Monitor Arm**

# **Cygnus** Freedom to move

When installing the arm onto the C clamp it is important that the following procedure is followed:

- Fix the C clamp securely to the desk by aligning the three grub screws with the spreader plate provided.
- Insert the shaft of the lower section of the arm into the plastic cup of the C clamp.
- Secure the arm by slowly tightening the allen grub screw (Do not over tighten).
- When the grub screw stops rotating you must rewind a full 360° to prevent the grub screw making contact with the shaft of the lower section of the arm.

Failure to follow this installation procedure may cause damage to the arm and may invalidate your warranty.
