

# Ladder CPU support

Ladder is a stylish and functional solution for CPUs with its steel frame it supports the CPU together with the strong nylon strap used to secure the CPU in position.

## Single Ladder

- Adjustable support platform to accommodate different CPU sizes and mounting heights
- A strap secures the CPU permitting easy removal for servicing or replacement
- Mounting bracket screws directly into the underside of the work surface
- Optional slide and rotate mechanism
- Can be adapted to fit to beam based furniture if required
- Max dimensions:  
500mm (H) x 130mm (W)
- Supports CPU weights up to 15kg - subject to desk material

**Optional** Slide and Rotate allows movement of the CPU holder for Snug and Ladder.

Slide mechanism requires a minimum desk width of 700mm (Track length 407mm).

## Double Ladder

- Double Ladder supports 2 CPUs side by side
