Note: Other international socket options are available so please discuss with a member of our sales team.

In Desk Power

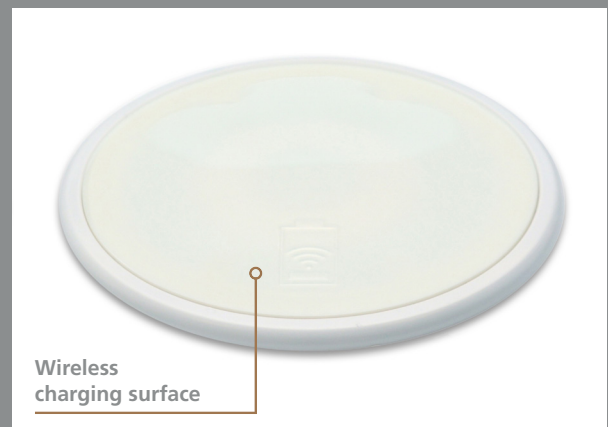

PortHole Wireless Charging Module

This award winning version of PortHole takes charging to the next level - wireless! It is ideal for adapting an 80mm cable hole or for upgrading your existing PortHole and PortHole II modules.

Simply place your wireless induction charging compatible device on the charger. A beep will acknowledge the connection, LED's will illuminate around the charger's perimeter and charging will commence.

the **ELECTRICAL** Industry awards **WINNER** 2014

Wireless charging surface
