Build it your way

Please see page 47 for more information.

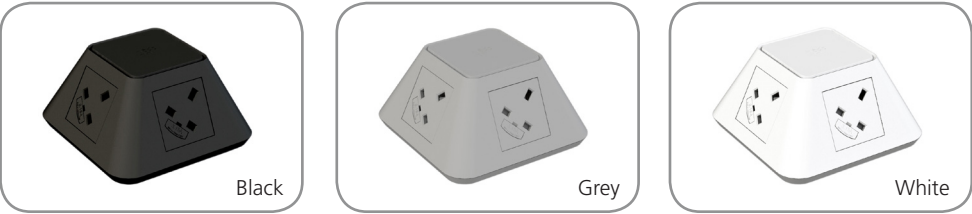

- Choice of Black, Grey or White body and matching socket fascias. Other colour combinations available subject to MOQ and lead times
- Inca has 4 usable faces offering a wide range of configurations for power and USB charging
- All UK sockets feature integral fuses with a choice of 3.15A or 5A fuses to comply with BS 6396
- All standard options are supplied with a 1m mains lead to male 3 pole connector.
- Inca is available as a freestanding on desk module or can be fixed using a simple grommet hole fixing
- The modules is made of flame retardant ABS plastic body and is tested to comply BS 5733

Fuses: Only accessible after removal of equipment plug. Lead lengths shown will be the conductor length and not the distance from the end of the module to the plug. For example, a 3m prewired power lead will be approximately 2.875m as 125mm will be internal for the termination.

Cables: White and grey modules are supplied with white cables and black modules are supplied with black cables.

Inca power and USB charging

On Desk Module

This module sits directly on the desk surface so no fixings are required.

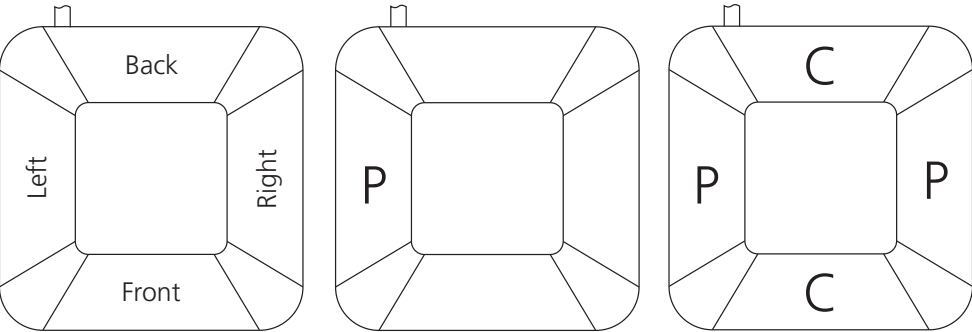

Grommet Mount Module

This module is fixed to the desk using an 80mm grommet hole fixing and is secured using a simple screw fit mechanism.

Product Guide: P = UK Power Socket C = Twin port 2A USB Charging Socket

The Inca module has a cable entry point at the back (not used with grommet mount module). This can be used to define the front, back, left and right of the module.

All Inca modules come with a power socket on the left as standard.

Inca is available in a number of configurations. Shown here with 2x Power and 2x Twin port 2A USB Charging.
