

## Thin client holder

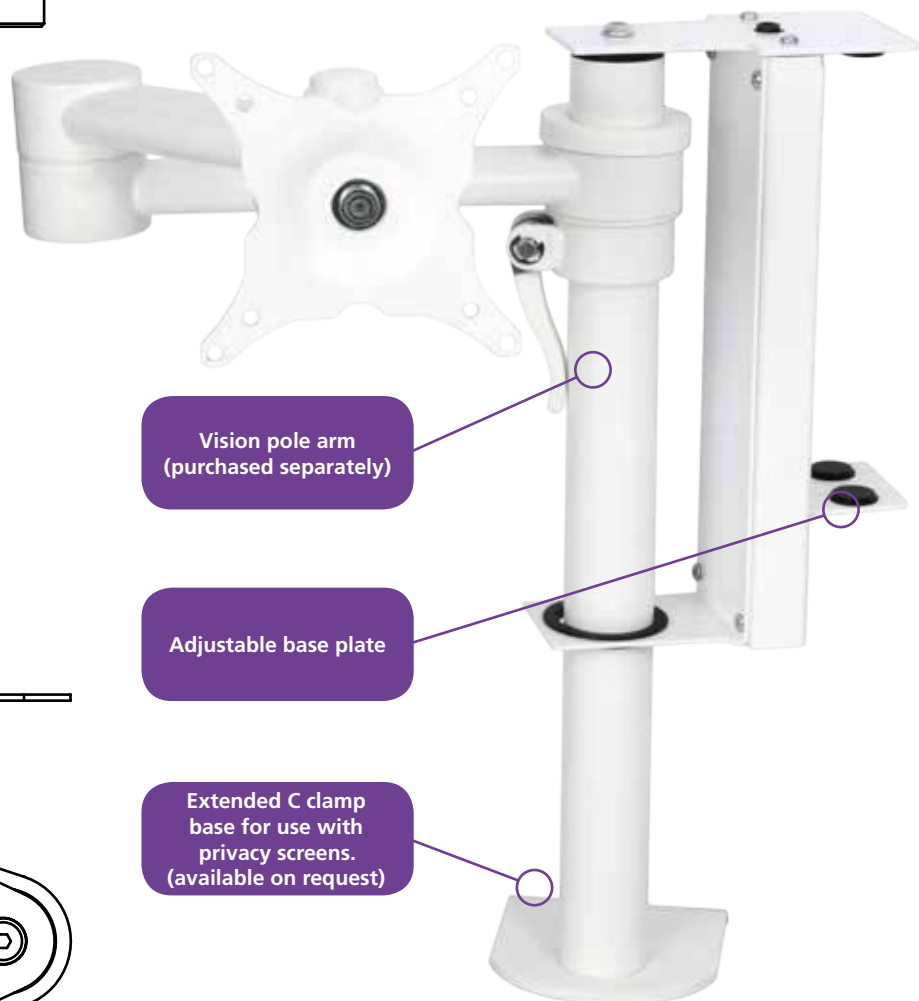

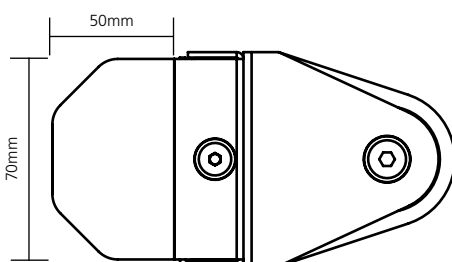

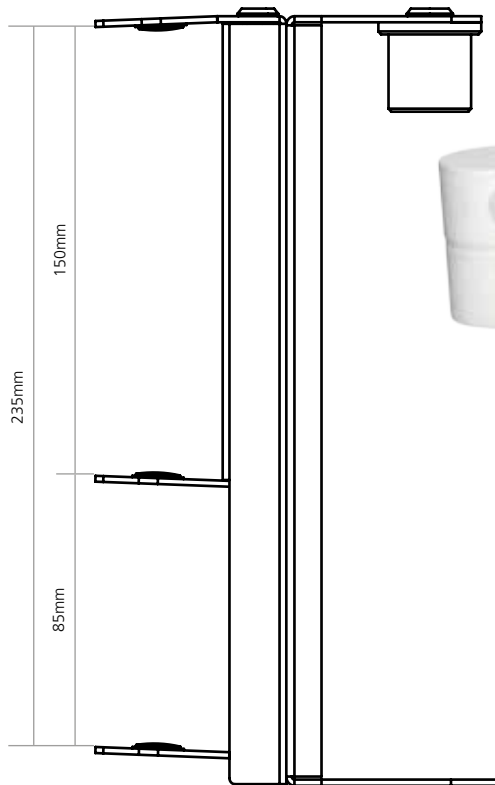

Used in conjunction with the Vision pole arm the thin client holder can support a variety of thin client sizes. The Vision pole arm can be supplied with an extended C clamp base if needed to allow the holder to be used with desk privacy screens - please ask for details.

Designed to support thin clients with a minimum height of 150mm, a maximum height of 235mm, maximum width of 300mm and maximum depth of 60mm.

- Easy Fixing - Can be fitted to your existing Vision pole monitor arm or bought together for new installations.
- Strong Construction - Constructed from 2mm powder coated steel making this an affordable and robust solution for thin client users.
- Versatility - The Vision thin client holder is fully adjustable and can accommodate a wide range of thin client sizes.

| Code   | Colour | Description               |
