power

Design a power module to suit your needs

power
modules

Switches:

- Neon Switch
- Single Pole (with or without neon)
- Double Pole (with or without neon)

International Sockets:

- French/Belgian
- German
- Italian
- Swiss
- American*
- Indian

Note: International sockets are only available in black and white but can be fitted with a black, grey or white surround.

UK Sockets:

- Standard UK 45 & 90 degrees
- Standard UK fused 45 & 90 degrees (3.15A & 5A)
- T-earth 90 degrees
- T-earth 90 degrees fused (3.15A & 5A)

*Note: We recommend that a dual supply is used when a 110V American socket is installed with a UK 240V supply.

Some modules are also available with Footprint, our energy management system, and our breakers/protection options so please ask a member of our sales team for more information.

USB Charger:

- 2 Amp USB Charger
- 4 Amp USB Charger
- Micro USB spool

All socket types are available in black, grey and white as standard.

Note: Slight colour variations may occur depending on socket type and batch number.

Data Sockets:

- RJ11
- RJ45 (Cat5e, Cat6 and Cat6a)
- LJ6C
- USB
- Data Slots

Audio & Visual

- HDMI
- VGA
- 3.5mm Audio
- 3 Phono
- Phono
- S Video

While standard configurations are offered, power modules can be adapted to meet your requirements. With a world of choice between sockets simply call us on **+44 (0)1709 385485** to discuss your requirements.

Socket options

Our twin port USB charger sockets are compatible with a range of in desk and on desk power modules. This dual port USB charger, available in 2A and 4A versions, is capable of charging a wide range of devices including the simultaneous charging of two Apple devices.

- Available in black, grey and white to match our standard module colours.
- Complies with the latest charging standard (BS EN 62684 Interoperability specifications of common external power supply (EPS) for use with data-enabled mobile telephones)
- Powered from adjacent power socket so no additional wiring is required

Note: These twin port USB charging devices are for charging only. No connection is made to a computer so data transfer is not available. USB cables are required but are not provided.

Our Micro USB spool can be fitted to our full range of on desk power modules, removing the need for separate mobile device chargers and cables.

- Available in black, grey and white to match our standard module colours.
- 500mm maximum cable length.
- Power is taken from adjacent dual port USB charging socket so no additional wiring is required.
- Can provide power for mini USB, Apple Lightning and Apple 30 pin connectors when used with our Micro USB adaptor.

Code	Description
161404	Micro USB Adaptor

Our new data sockets can be fitted to our full range of on desk power modules and can be accessed from the back of the module to allow greater flexibility with data lead lengths.

- Available in black, grey and white to match our standard module colours
- New flat fronted design to improve overall aesthetic
- Rear access keystone to give greater flexibility for data lead lengths
- Supports our range of keystone couplers to include; RJ45, USB 2, USB C and HDMI

Note: Separate data cables must be purchased with our new rear access data sockets. Other cable lengths are available on request.

Code	Description
161713	3m Cat 6 data cable. Male to male connector
161239	2m USB data cable. Male to male connector
161718	2m HDMI data cable. Male to male connector

Build it your way

The customise me logo shows that socket variations can be configured to suit your individual needs. See below.

Manage your energy

The Footprint logo shows when a module can be configured for energy management.

modules
power

USB Sockets

CMD supply two different types of USB sockets; USB data and USB charging. Our USB Data sockets come complete with a USB cable that must be connected to the corresponding USB socket on a computer to allow data to be transferred to and from the on desk module. Our USB charging socket is hardwired into the module's power supply to produce a dual port USB charger capable of charging a wide range of devices including the simultaneous charging of two Apple devices.
