

Dear Customer

## New Vision Pole Monitor Arm from CMD

October 2016

### **CMD are pleased to announce the launch of the New Vision pole arm.**

Our newly designed Vision pole arm has been given a face lift and is now based around a 32mm pole. The arm sections have been dramatically reduced and reshaped to improve the overall appearance of the arm and new cable management clips ensure that cables remain securely in place. The arm also includes our new quick release VESA head which makes the installation and maintenance of monitors quicker and easier than ever before. Available as a single and double monitor arm with laptop support.
