

Contour has a modern, curved appearance displaying many design features like our lateral fuse carrier, internal segregation between power and data and comes complete with plastic clips on the covers so there are no visible fixing screws and fully compliant to current safety regulations.

Contour Plastic Power Module

power
modules

A choice of UK and international socket comply with BS 6396:2008

Flame retardant ABS plastic body with a choice of fascia colours

Choose from power, USB charging, data, audio and international sockets

Features

- Power and data cables all exit from the back of the unit unless on a slatwall/tool rail where cables exit from the bottom of the unit
- Unit complies with BS 5733
- All standard options are supplied with a 1m mains lead to 3 pole connector and 3m data lead where relevant
- Requires a separate mains lead if connected directly to a socket
- Fixing via Contour C clamp or adhesive fixing kit

Build it your way

Please see page 39 for more information.

Manage your energy

Configure to allow energy to be monitored and controlled with Footprint. See page 156 for more details.
*Please note that 6 tiles is the maximum with a maximum length of 362.5mm.

Note: CMD cannot accept any responsibility or liability for providing category 6 performance in products supplied.

Fuses: Only accessible after removal of equipment plug. Lead lengths shown will be the conductor length and not the distance from the end of the module to the plug. For example, a 3m prewired power lead will be approximately 2.875m as 125mm will be internal for the termination. This is also applicable for data leads. Data fascias may be subject to colour change.

Cables: White and grey modules are supplied with white cables and black modules are supplied with black cables.

HDMI: CMD cannot accept any responsibility or liability for providing HDMI performance in products supplied over 5m in length.
