

Face is a new module designed to fit the vertical surface of any furniture. It features a seamless surround that is available in black, grey or white but can also be finished in stainless steel. The socket faces have been specifically designed to fit flush to the furniture surface to respect the overall appearance and design of the furniture and to help prevent snagging. Available portrait (type 1) and landscape (type 2) and offering power and USB charging.

Face Power Module

New Product

power modules

Face is available in two orientations; Portrait and Landscape. Whilst the specification of both modules is the same the orientation of the sockets and graphics is different so please ensure you specify which type you need.

Fuses: Only accessible after removal of equipment plug. Lead lengths shown will be the conductor length and not the distance from the end of the module to the plug. For example, a 3m prewired power lead will be approximately 2.875m as 125mm will be internal for the termination, this is also applicable for data leads. Data fascias may be subject to colour change.

Cables: White and grey modules are supplied with white cables and black modules are supplied with black cables.
