

With its innovative design, PortHole is ideal for adapting an existing 80mm cable hole to allow a single power socket and a choice of keystones to be fitted to a desk with a simple screw fit mechanism.

## PortHole Power Module

### Manage your energy

Connect to Footprint to allow energy to be monitored and controlled with Footprint. See page 156 for more details.

### Features

- Available with a choice of black, white and grey plastic fascia surrounded by a metallic finished trim
- Compact dimensions, ideal for space-saving installations
- Features individual fuse and independently certified to BS 5733
- Fully segregated power and data
- Easy to retrofit, incorporates an under desk, hand tightened barrel nut to fix unit in place
- Power and data cables all exit from the base of the unit and come with a standard 1m mains lead to 3 pole connector, 3m data lead and 2m USB lead where appropriate
- Designed to fit any desk thickness between 13mm and 50mm

Note: CMD cannot accept any responsibility or liability for providing category 6 performance in products supplied.

Fuses: Only accessible after removal of equipment plug. Lead lengths shown will be the conductor length and not the distance from the end of the module to the plug. For example, a 3m prewired power lead will be approximately 2.875m as 125mm will be internal for the termination. This is also applicable for data leads. Data fascias may be subject to colour change.

Cables: White and grey modules are supplied with white cables and black modules are supplied with black cables. HDMI: CMD cannot accept any responsibility or liability for providing HDMI performance in products supplied over 5m in length.

Code	Colour	Description
90P001BGST	Black/Silver Surround	1 x UK Power Socket
90P001GGST	Grey/Silver Surround	Power socket 3.15A individually fused with 1m mains cable to 3 Pole connector

90U005WGST	White/Silver Surround	

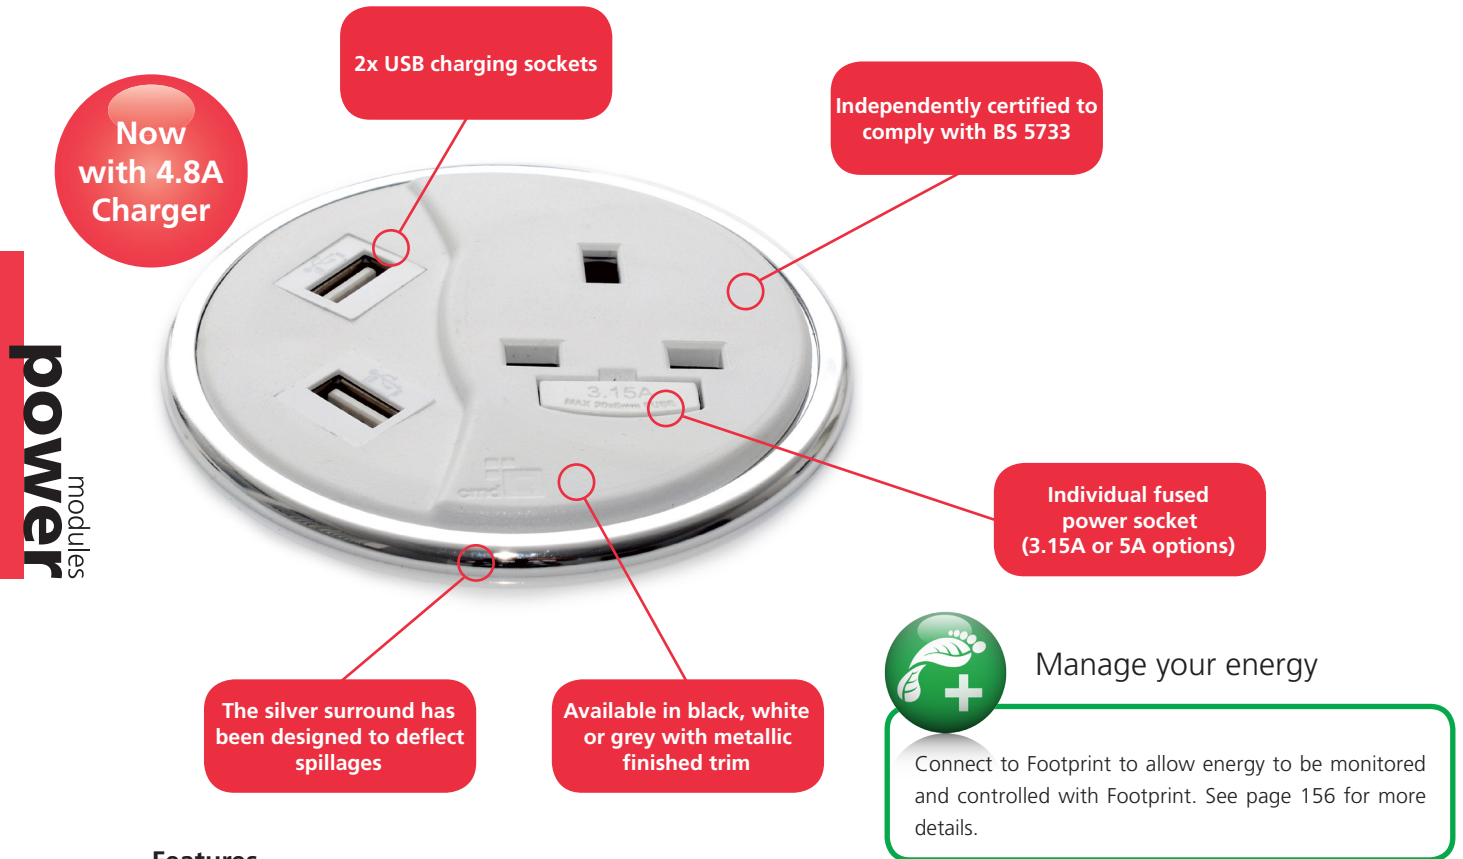

HDMI sockets, Mini Jack Keystones and 5A fuses are also available. Cat6 socket is fully backward compatible.

# In Desk Power and USB Charging

This version of PortHole has been designed to include our dual port USB charger, which is capable of charging a wide range of devices including the simultaneous charging of two Apple devices.

## PortHole II Power Module

### Features

- Complies with the latest charging standard (BS EN 62684 Interoperability specifications of common external power supply (EPS) for use with data-enabled mobile telephones)
- Dual port 4.8A USB charger supplied by a satellite unit that can be secured to the underside of the desk surface or placed in your cable management tray. This is capable of charging a wide range of devices including the simultaneous charging of two Apple devices
- Two independent USB charging ports, which can be used at the same time
- Powered from adjacent power socket so no additional wiring is required

Code	Colour	Description
90CP01BGST	Black/Silver Surround	1 x UK Power Socket
90CP01GGST	Grey/ Silver Surround	Power socket 3.15A individually fused with 2 port 4.8A USB charger, 1m mains cable to 3 Pole connector
90CP01WGST	White/ Silver Surround	

Note: CMD cannot accept any responsibility or liability for providing category 6 performance in products supplied. We will however fit category 6 specification components where specified.

Fuses only accessible after removal of equipment plug. Lead lengths shown will be the conductor length and not the distance from the end of the module to the plug. For example, a 3m prewired power lead will be approximately 2.875m as 125mm will be internal for the termination. This is also applicable for data leads.

HDMI: CMD cannot accept any responsibility or liability for providing HDMI performance in products supplied over 5m in length.

# In Desk Wireless Charging

This award winning version of PortHole takes charging to the next level - wireless! It is ideal for adapting an 80mm cable hole or for upgrading your existing PortHole and PortHole II modules.

Simply place your wireless induction charging compatible device on the charger. A beep will acknowledge the connection, LED's will illuminate around the charger's perimeter and charging will commence.

What makes PortHole III unique is that CMD have developed a wireless charger that has an integral power supply so there is no requirement for a separate device to power the module.

## Wave Wireless Receiver

This new wireless charging receiver has been designed to work with our the PortHole III wireless charging module.

Simply insert the connector into the device's micro USB or Apple Lightning socket and place the wireless charging receiver in the centre of the PortHole III wireless charging module.

Code	Colour	Description
90WP01BGST	Black/Silver Surround	1 x Wireless charging module
90WP01GGST	Grey/Silver Surround	1m mains cable to 3 Pole connector
90WP01WGST	White/Silver Surround	
90WR01W	White	1x Wave wireless receiver 1x micro USB and 1x Apple Lightning connector

# In Desk Power and USB Charging

This new version of Porthole has been designed to support a range of UK and international sockets and comes complete with integral 4A USB power supply. The 2 port USB power supply, which is capable of charging all leading mobile phones and tablets, is designed to share the power when two devices are connected but can deliver a maximum 4A to a single USB socket when only one device is connected.
